

Juan José Pischetz

FullStack Developer

✉ juanjo.pischetz@gmail.com 📍 San Luis, Argentina 🗣 @JuanjoPischetz

Glad to see you here!

I'm a full-stack developer, passionate about programming, so I constantly like to learn new technologies. Furthermore, I want to develop platforms that impact people's lives, improving their quality of life.

10 years of experience in entrepreneurship led me to develop a wide range of soft skills. I'm a proactive, emphatic leader who loves to motivate team members to achieve the project's goals, I can deal with pressure and accomplish deadlines.

Professional Experience

MVP PawsFounding, *HENRY (professional practice)*

11/2022 – 12/2022

My role here was project manager/developer. Cause

I recruited the team and laid the foundations of the product design, the objective to be met, and the first user stories. furthermore mainly worked on the frontend, highlighting GEOLOCALIZATION as my main achievement.

Stack: TypeScript - Prisma - MongoDB

React - Redux Toolkits - Tailwind CSS

GEO: Leaflet - React-Leaflet

Education

Electronics Engineer (with orientation to digital systems - Unfinished),

Universidad Nacional de San Luis

03/2008 – 12/2013

San Luis, Argentina

Relevant Knowledge:

- Logical thinking, advanced maths (calculus).
- Embed systems' design (VHDL - C)
- Foundations of programming (Pseudo code - C)
- State Machines
- Industrial Automation (PLC - LOGO)

FullStack Developer (PERN Stack), HENRY

08/2022 – 12/2022

+1200 hours of coding, makes me a skillful developer at:

- Javascript, HTML, CSS
- Node.js, Express.
- Sequelize, PostgreSQL
- React, Redux.

Technologies I studied by myself:

- TypeScript
- NoSQL (MongoDB and Prisma)
- Angular 14
- JWT - OAuth - BCrypt

Languages

Spanish

English

EF SET C2

Background

RST Servicios, Industrial Automation

01/2008 – 01/2016

This was my first job, during my college studies. My main task was developing electronics implementations and industrial automatization with PLC. Also, learn how to weld and do my own structures.

CALMED ISO 17025, Metrology Lab. (Co-founder)

01/2013 – 01/2016

Argentina

This was my first startup ever. I left college to dedicate myself entirely to making this business grow. We focus on calibrating and certificate field measurement tools, on temperature, weight, or pressure under ISO 17025 Standard.

My main task here was Sales and client management. Also, write quality manuals.

Measure Services, freelance

01/2016 – present

Argentina

I actually offer measurement services for the industry. I do field tasks (measuring) and also administration tasks (like closing sales, budgeting, and invoices). The client's most required services are grounding measurement (ohm), thermographies (electrical wiring), and pressure related.
