### Glad to see you here!

---

I'm a full-stack developer, PERN Stack. I am passionate about programming and I like to learn new technologies constantly. I want to develop platforms that impact people's lives, improving their quality of life. I started in August 2022, and as I lack the experience I make up for it with hard work, dedication, and commitment.

10 years of experience in entrepreneurship led me to develop a wide range of soft skills. I have experience managing work teams, standing out for being an empathetic leader, who practices accurate communication and active listening. I have skills to negotiate and close sales, as well as long-term business vision.

I want to practice more TypeScript-Prisma-Mongodb and start working with Next.js. I hope soon focus my career on Solidity, Smart Contracts, and NFTs.

### Professional Experience

---

#### Teaching Assistant Tutor, *HENRY*

10/2022 – 12/2022

Bootcamp Assistant (TA) for Full-Stack Development Students.

Main tasks:

- Coordinate a group of students to achieve integration to the study group.
- Guide students in the first steps of the course.
- Assist to solve exercises and promote group collaboration (Pair Programming).
- Propose ideas to improve the Bootcamp processes.
